Volume Contents

Volume 27 Number 1 — January 1999

Dentine permeability and tracer tests 1
M.S. Gale and B.W. Darvell

Clinical evaluation of a posterior composite 10-year report 13
A. Raskin, B. Michotte-Theall, J. Vreven and N.H.F. Wilson

Oral health status of southern Chinese following head and neck irradiation therapy for nasopharyngeal carcinoma 21
E. Schwarz, G.K.C. Chiu and W.K. Leung

Cuspal deflection during polymerisation of composite lutes of ceramic inlays 29
N. Martin, N.M. Jedynakiewicz and D.F. Williams

The influence of luting cements on the fermentation of sucrose by oral microorganisms 37
R. Schmeiser and H.-J. Gülzow

Effect of endodontic irrigation solutions on microhardness of root canal dentine 43
A.A. Saleh and W.M. Ettman

Cusp fracture resistance in composite–amalgam combined restorations 47
M. Franchi, L. Breschi and O. Ruggeri

Fluoride release from orthodontic bonding agents: a comparison of three in vitro models 53
V.L. Monteith, D.T. Millett, S.L. Creanor and W.H. Gilmour

The influence of dentine bonding systems and their handling characteristics on the morphology and micropermeability of the dentine adhesive interface 63
B.M. Griffiths, T.F. Watson and M. Sherriff

Aluminium radiopacity standards for dentistry: an international survey 73
D.C. Watts and J.F. McCabe

Water resistance of resin-bonded joints with time related to alloy surface treatment 79
P. Moulin, B. Picard and M. Degrange

Calendar IBC

Volume 27 Number 2 — February 1999

Thermal cycling procedures for laboratory testing of dental restorations 89
M.S. Gale and B.W. Darvell

The effect of parabens in a mouthwash and incorporated into a sustained release varnish on salivary bacteria 101
D. Steinberg, Z. Hirschfeld, I. Tayeb, S. Ben-Yosef, A. David and M. Friedman

Bioactivity of pseudowollastonite in human saliva 107
P.N. De Aza, Z.B. Luklinska, M.R. Anseau, F. Guitian and S. De Aza

Salivary sialic acid, protein, salivary flow rate, pH, buffering capacity and caries indices in subjects with Down's syndrome 115
A. Yarat, S. Akyüz, L. Koç, H. Erdem and N. Emekli

Marginal adaptation of direct composite and sandwich restorations in Class II cavities with cervical margins in dentin 119
Th. Dietrich, A.C. Lösche, G.M. Lösche and J.-F. Roulet

An investigation of the variables which may affect the bond between plastic teeth and denture base resin 129
J.L. Cunningham and I.C. Benington

Surface fine structure of treated dentine investigated with tapping mode atomic force microscopy (TMAFM) 137
N. Silikas, D.C. Watts, K.E.R. England and K.D. Jandt

Colour perception of laboratory-fired samples of body-coloured ceramic 145
J.L. Geary and M.J. Kinirons

Influence of light irradiation on the volumetric change of polyacid-modified resin composites 149
M. Miyazaki, K. Fukuishi and H. Onose

The influence of alloy copper content on the polymerisation of anaerobic adhesives 155
A.J. Ireland and M. Sherriff

In-vitro study of fracture strength and marginal adaption of fibre-reinforced adhesive fixed partial inlay dentures 163
M. Behr, M. Rosentritt, A. Leibrock, S. Schneider-Feyrer and G. Handel

Calendar IBC

Volume 27 Number 3 — March 1999

Maximising the fracture resistance of dentine-bonded all-ceramic crowns 169
F.J.T. Burke

Crack formation of all-ceramic crowns dependent on different core build-up and luting materials 175
J. Sindel, R. Frankenberger, N. Krämer and A. Petschelt

The biaxial flexural strength of two pressable ceramic systems 183
M.J. Cattell, J.C. Knowles, R.L. Clarke and E. Lynch

Mechanical properties of an experimental denture soft lining material 197
M.G.J. Waters and R.G. Jagger

Influence of self-etching primer drying time on enamel bond strength of resin composites 203
M. Miyazaki, N. Hirohata, K. Takagaki, H. Onose and B.K. Moore

Effect of water content on the physical properties of model dentine primer and bonding resins 209
S.J. Paul, M. Leach, F.A. Rueggeberg and D.H. Pashley

Comparison of the bond compatibility of titanium and an NiCr alloy to dental porcelain 215
H. Yilmaz and C. Dinçer

A fluid filtration and clearing technique to assess microleakage associated with three dentine bonding systems 223
C.C. Youngson, J.C. Glyn Jones, K. Fox, I.S. Smith, D.J. Wood and M. Gale

A survey of output intensity and potential for depth of cure among light-curing units in clinical use 235
R. Pilo, D. Oelgiesser and H.S. Cardash

Short Communications

Patient discomfort and cross-infection control in bitewing examination with a storage phosphor plate and a CCD-based sensor 243
A. Wenzel, E. Frandsen and H. Hintze

The effectiveness of two sterilization methods when different precleaning techniques are employed 247
L.H. Pratt, D.G. Smith, R.H. Thornton, J.B. Simmons, B.B. Depta and R.B. Johnson

Volume 27 Number 4 — May 1999

Review

Reproductive toxicity of occupational mercury. A review of the literature 249
A.H.B. Schuurs

Effects of direct resin pulp capping techniques on short-term reponse of mechanically exposed pulps 257
Y. Kitasako, S. Inokoshi and J. Tagami

The effect of dentine location and tubule orientation on the bond strengths between resin and dentine 265
S. Phrukkanon, M.F. Burrow and M.J. Tyas

Stiffness, elastic limit, and strength of newer types of endodontic posts 275
E. Asmussen, A. Peutzfeldt and T. Heitmann

Water sorption and colour stability of composites containing the antibacterial monomer MDPB 279
S. Imazato, H. Tarumi, S. Kato and S. Ebisu

Development and evaluation of a low erosive blackcurrant juice drink in vitro and in situ. 1. Comparison with orange juice 285
J.A. Hughes, N.X. West, D.M. Parker, R.G. Newcombe and M. Addy

Application of *bis*-eugenol to a zinc oxide eugenol cement 291
S. Fujisawa, Y. Kashiwagi, T. Atsumi, I. Iwakura, T. Ueha, Y. Hibino and I. Yokoe

Investment strength as a function of time and temperature 297
C.L. Chew, M.F. Land, C.C. Thomas and R.D. Norman

The effect of curing regime on the release of hydroxyethyl methacrylate (HEMA) from resin-modified glass-ionomer cements 303
G. Palmer, H.M. Anstice and G.J. Pearson

Short Communication

Effect of sterilisation methods on the structural integrity of artificial enamel caries for intra-oral cariogenicity tests 313
B.T. Amaecha, S.M. Higham and W.M. Edgar

Conference report

British Isles symposium on the future of dental clinical skills training 317
A.W.G. Walls, R. Whatley, N.H.F. Wilson and co-authors

Volume 27 Number 5 July 1999

IPS Empress inlays and onlays after four years — a clinical study 325
N. Krämer, R. Frankenberger, M. Pelka and A. Petschelt

The effect of saliva on enamel and dentine erosion 333
A.F. Hall, C.A. Buchanan, D.T. Millett, S.L. Creanor, R. Strang and R.H. Foye

Development and evaluation of a low erosive blackcurrant juice drink. 2. Comparison with a conventional blackcurrant juice drink and orange juice 341
N.X. West, J.A. Hughes, D.M. Parker, R.G. Newcombe and M. Addy

Development and evaluation of a low erosive blackcurrant juice drink. 3. Final drink and concentrate, formulae comparisons in situ and overview of the concept 345
J.A. Hughes, N.X. West, D.M. Parker, R.G. Newcombe and M. Addy

An in vitro investigation of a poly(vinyl phosphonic acid) based cement with four conventional glass-ionomer cements. Part 1: flexural strength and fluoride release 351
V. H. W. Khouw-Liu, H. M. Anstice and G. J. Pearson

An in vitro investigation of a poly (vinyl phosphonic acid) based cement with four conventional glass-ionomer cements. Part 2: maturation in relation to surface hardness 359
V.H.W. Khouw-Liu, H.M. Anstice and G.J. Pearson

Flexural and thermal cycling of resins for veneering removable overlay dentures 367
C.G. Kountouras, J.A. Howlett and G.J. Pearson

Failure of resin-modified glass-ionomers subjected to shear loading 373
S.K. Sidhu, M. Sherriff and T.F. Watson

Comparison of polymerization contraction stresses between self- and light-curing composites 383
Y. Kinomoto, M. Torii, F. Takeshige and S. Ebisu

Effect of dentin primers containing *N*-methylolacrylamide or *N*-methylolmethacrylamide on dentin pretreatment 391
T. Fukushima, T. Itoh, Y. Inoue, M. Kawaguchi and K. Miyazaki

Volume 27 Number 6 — August 1999

Dental materials: 1997 literature review 401
C.J. Whitters, R. Strang, D. Brown, R.L. Clarke, R.V. Curtis, P.V. Hatton, A.J. Ireland, C.H. Lloyd, J.F. McCabe, J.W. Nicholson, S.N. Scrimgeour, J.C. Setcos, M. Sherriff, R. van Noort, D.C. Watts and D. Wood

Clinical behaviour of glass ionomer restorations in primary teeth 437
I. Espelid, A.B. Tveit, K.H. Tornes and H. Alvheim

Oral status and nutrition in the institutionalized elderly 443
M. Lamy, Ph. Mojon, G. Kalykakis, R. Legrand and E. Butz-Jorgensen

Ion release from orthodontic appliances 449
N. Staffolani, F. Damiani, C. Lilli, M. Guerra, N.J. Staffolani, S. Belcastro and P. Locci

Fluoride release, microbial inhibition and microleakage pattern of two orthodontic band cements 455
T.J. Gillgrass, D.T. Millett, S.L. Creanor, D. MacKenzie, J. Bagg, W.H. Gilmour and R.H. Foye

Erratum 463

Volume 27 Number 7 — September 1999

Flow and free running speed characterization of dental air turbine handpieces 465
J.E. Dyson and B.W. Darvell

Comparison of two measurement techniques for clinical wear 479
M.C.R.B. Peters, R. Delong, M.R. Pintado, U. Pallesen, V. Qvist and W.H. Douglas

Evaluation of post-treatment solutions for clinical use with the calcium phosphate precipitation method 487
T. Suge, K. Ishikawa, A. Kawasaki, K. Suzuki, T. Matsuo and S. Ebisu

The use of magnification in general dental practice in Scotland—a survey report 497
A.H. Forgie, C.M. Pine, C. Longbottom and N.B. Pitts

In vitro dentine hardness following gamma-irradiation and freezing 503
H. Moscovich, N.H.J. Creugers, J.A. Jansen and J.G.C. Wolke

An atomic force microscopy study on the effect of bleaching agents on enamel surface 509
C. Hegedüs, T. Bistey, E. Flóra-Nagy, G. Keszthelyi and A. Jenei

Dynamic viscoelastic properties of antimicrobial tissue conditioners containing silver–zeolite 517
M. Ueshige, Y. Abe, Y. Sato, K. Tsuga, Y. Akagawa and M. Ishii

Tensile bond strength to and SEM evaluation of ground and intact enamel surfaces 523
N. Kanemura, H. Sano and J. Tagami

Permeability changes of dentine treated with titanium tetrafluoride 531
R.B. Kazemi, B.H. Şen and L.S.W. Spångberg

Letter to the Editor 539
C.L. Davidson and A.J. Feilzer

Volume 27 Number 8 — November 1999

Editorial 541

Clinical testing of restorative materials: some historical landmarks 543
R.C. Randall and N.H.F. Wilson

A 4-year clinical study on amalgam, resin composite and resin-modified glass ionomer cement restorations in overdenture abutments 551
H.M.A.M. Keltjens, T.J. Creugers, M.A. van't Hof and N.H.J. Creugers

Human pulp response after an adhesive system application in deep cavities 557
J. Hebling, E.M.A. Giro and C.A.S. Costa

Factors influencing the selection of panoramic radiography in general dental practice 565
V.E. Rushton, K. Horner and H.V. Worthington

Torque, power and efficiency characterization of dental air turbine handpieces 573
J.E. Dyson and B.W. Darvell

The influence of clinically induced variability on the bi-axial fracture strength of aluminous core porcelain discs 587
G.J.P. Fleming, R.M. Shelton and P.M. Marquis

Particle-induced X-ray emission and scanning electron microscopic analyses of the effects of CO_2 laser irradiation on dentinal structure 595
M. González, J.A. Banderas, V. Rodríguez and V.M. Castaño
